GENERAL GUIDELINES

- All the NCCP data is stored in the CAC Database – The LOCKER. It is the responsibility of the Coach Developers to complete training in operation of this database and to enter data for completed activities. It is the responsibility of the individual candidate coaches to register for courses in this database.
- As of September 2016, all candidate coaches who are 18 years old and older are required to do a background check. For details see: <https://www.sterlingtalentsolutions.ca/landing-pages/j/judo-canada/>.
- As of September 2019, all Program Leaders (dojo Shu; Technical Directors; Community Coaches; etc.), are required to take the online training offered by the Respect In Sport Group. This training is available at: <https://judo-canada-al.respectgroupinc.com/>. Successful completion of this event is recorded in the LOCKER as a Professional Development event for all CERTIFIED coaches
- As of September 2016, registration for all NCCP courses taking place in Canada must be done via the CAC LOCKER Database.
- As per the CAC policy, there is **no certification without evaluation**.
- The Dojo Assistant and Dojo Instructor courses are offered in two different delivery options. Option 1: integrated learning experiences where the theory and the technical components are combined into one course. Option 2: blended learning format where the theoretical part is delivered via electronic means and it is followed by an in person session on the mat.
- The coach/instructor must have passed the online "Make Ethical Decisions" component before the practical evaluation. This evaluation is under the CAC jurisdiction, and as per the CAC policy, in case the coach/instructor in training fails to pass the online Make Ethical Decisions (MED) test twice, they will have to take the MED module offered by Provincial/Territorial sport governing bodies. As of May 2019, this module is also offered by Provincial/Territorial sport organizations in a Webinar format. The additional training offered by the CAC is not free and the fee must be paid by the coach.

- Normally, the practical components of one coaching designation must be completed before credit can begin for the practical component of the next coaching designation.
- The certification is valid for 5 years, as per the standards set by the Coaching Association of Canada.
- Maintenance of certification is accomplished by:
 - Professional development activities as defined by the NCCP committee.
 - OR
 - Re-evaluation
- If the certification is allowed to expire, the coach status will be displayed in the LOCKER with a “not renewed” status. However, once the coach accumulates the required number of points, the status will change to “Certified” and the new 5-year validity period will start as of January 1st of the next calendar year.
- COURSE FEEDBACK FORM Candidate coaches will be asked to provide feedback relative to the course content, the course delivery itself, and the performance of the Coach Developer.
- To ensure that quality of coaching education is not compromised, the recommended ratio of Coach Developer to candidate coaches is 1 to 16 when the course is delivered in person and 1 to 12 in the online environment; However in exceptional circumstances it can be increased to 1:24 Exceptional circumstances may result from situation such as: course delivered in a very remote location in Canada; or particularly long period of delay in NCCP course delivery (i.e. due to Covid restrictions).
- NCCP courses must be organized on the preregistration basis only on a first come – first served basis.

BLENDING LEARNING TRAINING FORMAT

The Covid-19 crisis presented Judo Canada with an opportunity to develop an NCCP blended learning delivery option for the Introduction to Competition and the Coach of Developing athletes streams (Certified Instructor status). This training consists of three components: 1. On-line theoretical sessions; 2. Homework by participating coaches and 3. In person on the mat micro-facilitation and evaluation delivered when in person training is offered. The training will be delivered according to the following protocol:

1. Normally, registration for the blended learning Instructor training will be managed by Judo Canada. Candidates must register via the LOCKER. The registration deadline will be set at 14 days in advance of the first On-line session. Judo Canada will distribute materials in electronic format. The LOCKER set up will remain as is - the coaches will be credited with the “Assistant” training after the first On-line session. They will be credited with the “Instructor” training after the last On-the mat in person training. They will be credited with the certified evaluation once the

facilitator/evaluator delivering the On-the mat sessions has determined their competency and has communicated this to the National NCCP coordinator at NCCP@judocanada.org

2. Facilitators delivering the On-line sessions must be trained in that format of delivery. The on-line sessions will be delivered via the Zoom or equivalent platform.
3. All the on-line session will be managed by two facilitators who will share the technology management with the facilitation duties.
4. The On-line sessions and the On-the mat in person sessions may be delivered by the same facilitator, but it is not necessary.
5. The recommended format of the On-line delivery is as follows: three (3) sessions: Instructor 1 on-line – approximately 4 hours; Instructor 2 On-line – approximately 3 hours; Instructor 3 On-line – approximately 3 hours. Modifications to this format are possible if regional circumstances allow for a mutually beneficial outcome to the Coach Developers and the participants. However, such changes must be approved in advance by the Judo Canada NCCP committee.
6. The homework for the participants will be communicated to them during the on-line sessions and must be completed during a fixed time frame. The homework includes: On-line Nutrition course offered via Judo Canada website; The Emergency Action plan offered via the CAC LOCKER database; the On-line evaluation on the Ethical Decision Making offered via the CAC LOCKER database; Homework in preparation of Micro-facilitation to be completed after the conclusion of the on-line sessions and in advance of the On-the mat in person sessions. This homework to be completed in the Teaching and Learning and in the U10/U14 Workbooks issued by Judo Canada.
7. The On the mat component has to be delivered over two days – day one Teaching and Learning micro-facilitations; Day 2: Sessions for children: Active Start; Fundamentals; Learn to Train; and T2T micro-facilitations.
8. All the on the mat sessions will be facilitated by one facilitator.
9. The recommended maximum number of participants in on-line sessions is twelve (12). Registration is on a first come first served basis. The recommended minimum number of registrants is six (6). Participants must commit to the full schedule of the Blended learning program – On-line sessions plus the On-the mat sessions.
10. Facilitation is offered either in English or in French. Only QC trained facilitators will deliver this blended learning option in French language.
11. Facilitators offering the on-line sessions will be entitled to claim an additional one hour of service per registered coach to offer one on one mentoring to participants on an “as needed” basis.
12. ONLY Judo Canada’s/CAC approved resources will be used to deliver the blended learning option.

ADVANCED COACHING DIPLOMA

Prerequisite for Judo Canada’s recommendation: Certified Competition Development Coach

The Advanced Coaching Diploma is delivered only by National Coaching Institutes (NCI) and by Universities in Canada offering this program as a postgraduate degree, in cooperation with Judo Canada; Judo Canada’s recommendations are necessary for approval into these programs;

Judo Canada supports all coaches who desire to improve their knowledge and competency, and thus, recommendation will be provided to all candidates who request it and meet the eligibility standards. All coaches who successfully complete this program will receive an Advanced Coaching Diploma Certification.

NOTE: Although the Advanced Coaching Diploma is a prerequisite for Judo Canada’s High Performance Coach Certification, candidates who complete the ACD program are not automatically eligible for access to the High Performance Coach Certification. Only coaches working with identified national team athletes competing internationally will be considered by Judo Canada for this certification.

The Advanced Coaching Diploma predominantly targets coaches working with Train to Train and Train to Compete athletes, which may include:

- NSO-identified coaches with potential to develop into coaches of high-performance athletes;
- National Training Centre coaches and assistant coaches;
- Canada Games and provincial team head coaches;
- Personal coaches of pre-carded, provincially carded, and developmental carded athletes;
- Club coaches of highly ranked clubs and self-made/entrepreneurial coaches;

The Advanced Coaching Diploma (ACD) provides flexibility for the active coach with a busy schedule. The diploma is available in a variety of options depending on the host of the program. At this time a one year intense course or two-year part-time program are offered by various NCI’s. Various delivery schedules are available. The diploma consists of four core themes: *Coaching Leadership*, *Coaching Effectiveness*, *Performance Planning*, and *Training and Competition Readiness*. Each theme requires coaches to complete a series of modules comprised of several 3-hour units of in-class sessions, seminars, workshops or labs. Coaches will be evaluated in each module based on their ability to demonstrate competency coaching developing athletes. Coaches enrolled in the Diploma program will work with a designated master and/or mentor coach who will support them in their completion of program requirements. The diploma program requires a mid-point and final assessment by a panel of content specialists. The diploma is one step towards certification in the Competition-Development Advanced Gradation context. To

complete his/her certification, the coach must contact Judo Canada to apply for the sport-specific evaluation which consists of completion of sport-specific tasks defined in the level 4/5 NCCP below.

Cost of the ACD Program

The full cost of the diploma is \$3000.00 for approved Canadian Coaches and \$13,000.00 for international students. Tuition is paid in two instalments but may vary by location.

MENTOR COACH

Definition:

Mentoring is defined as professional assistance in achieving the levels of coaching competency demanded by the coaching credentials sought by a mentee. Coaching Competency may be acquired by interaction with the Mentor coach. Coaching certification cannot be accomplished this way unless the Mentor Coach is also a certified NCCP evaluator.

Eligibility:

- The Mentor Coach must be certified for a minimum of 5 years at the designation sought by a mentee.
- The Mentor Coach must be approved by a jurisdiction in charge of the designation sought by a mentee. Mentor for an Instructor designation must be proposed by the Provincial/Regional Judo Association and approved by Judo Canada; Mentor for the Competition Development, and HP coach designations must be proposed and approved by Judo Canada.
- The Mentor Coach must agree to teach and demonstrate competencies as determined by the CAC and Judo Canada for the coaching designation sought by the mentee.
- Formal Training of Mentor Coaches is offered by the CAC.

JOB DESCRIPTION

- The Mentor Coach agrees to a personal interaction with a mentee which is at the minimum equal to the number of hours designated in this NCCP policy for each of the coaching designations or tasks (e.g. for the “Instructor designation”, the minimum number of hours required will be 40. For the Competition Development Coach – Technical portion, the minimum number of hours required will be 60).

- Use the CAC evaluation matrix to measure progress and success of the mentee.
- At the commencement of the process, agree with the mentee on the level of compensation, which must include Judo Canada's fees for a specific coaching designation.
- Ensure that the mentee is aware that agreement to mentor does not represent an automatic positive evaluation.
- Provide a sufficient verbal and written feedback to the mentee with a descriptive evaluation of what is done well and with a prescriptive evaluation of what needs to improve. Maintain the record of written evaluation to be shared with Judo Canada's NCCP commission member.

EQUIVALENCIES FOR SPECIFIC TASKS

Equivalencies for sport-specific competencies may be considered by Judo Canada upon recommendation from the mentor.

MAINTENANCE OF CERTIFICATION PROCESS

1. The certification is valid for 5 years
2. The Make Ethical Decisions online evaluation must be taken by all certified coaches at least once in a lifetime. All coaches whose certification to the new standards have been transferred as equivalencies from the old NCCP level system must take the MED online during the first 5 years after the transfer of qualification. Note that the fee for the online evaluation is imposed by the CAC and Judo Canada cannot wave it.
3. To qualify for certification maintenance, the instructor/coach must be active in judo.
4. To maintain certification, the instructor/coach must meet conditions specified in the Professional Development chapter below.
5. If the professional development requirement is not met, the instructor/coach status in the LOCKER will be displayed as "non-renewed", and to regain the certified status the coach will have to earn the missing points/or missing module (i.e. the MED online) or to be re-evaluated.

All records of participation in professional development activities delivered under the jurisdiction of Judo Canada must be recorded in the LOCKER by the facilitators or NCCP personnel who are granted access to the CAC Locker Database.

PROFESSIONAL DEVELOPMENT

Professional development is required for coaches to renew "Certified" status in any context.

Professional development requirements must be completed by the end of the period for which the certification is valid.

IMPORTANT: No professional development activity is required to renew the "Trained" status.

Professional Development points cannot be transferred into the future certification validity period – e.g. coach earns 100 points. By the beginning of the next period, that coach starts with zero (0) points.

Maintenance of Certification	Minimum Professional Development credits required
Context (includes any gradation)	Certification validity is 5 years
Assistant	10 points/5 years
Instructor	20 points/5 years
Coach - Competition – Development Coach High Performance	30 points/5 years

Professional Development credit is available in all of the following activity categories, within the limits described:

	Activity Category	Points	Limitations/all apply to 5-year eligibility period
Coaching	Active coaching	1 point/year for every season coached 1 point/year Coach Developer activity	To a maximum of 5 points
	NCCP activity- Judo modules	5 points/module*	No maximum or minimum
Technical	Non-NCCP activity – Technical clinics and courses sanctioned Nationally	3 points for ~ a minimum of 3h of an activity. One activity cannot be claimed for more than 3 points, regardless of its length.	No maximum or minimum
	Coach self-directed activity	3 points for the valid certification period – e.g. Saint John Ambulance; approved by Judo Canada Online educational judo materials	Maximum of 3 points for certification renewal period
	Re-evaluation in context	100% of the points required for PD credit in the context	No other PD is required if coach chooses re-evaluation
Multi-sport	NCCP activity – CAC Multisport or PD modules	5 points/in-class or online module	No maximum or minimum
	Respect In Sport for Activity Leaders	3 points	
	Non-NCCP activity	1 point/hour of activity up to 3 points maximum for a single activity.	To a maximum of 50% of required PD credit for the context in a certification renewal period
	University Courses	TBD	

NOTE: All coaches whose certification status was transferred from the former NCCP paradigm must take the Make Ethical Decision (MED) online evaluation in the first recertification period. As per the CAC

policy, the MED training is a fundamental requirement of the new NCCP, and without its completion, the re-certified status will not be triggered in the LOCKER regardless of the number of points accumulated from other activities. The cost of this online evaluation is set by the CAC and cannot be waived by Judo Canada. The evaluation online is, however, offered for free to coaches who take the Judo Canada module 1 and the course is registered with the CAC.

The CAC will maintain, for the benefit of the NCCP Partners, a national list of multi-sport NCCP and non-NCCP activities that are eligible for Professional Development credit along with the corresponding credit for each activity. Many of the multisport modules offer an online option. Any multisport module completed by a coach will automatically register in the LOCKER DB and count for the PD. For more information on multisport modules offered by the CAC see: <http://www.coach.ca/multi-sport-training-s15501>.

Further online modules are frequently added to the list of eligible PD activities – E.g. “Respect in Sport for activity leaders” available at: <https://judo-canada-al.respectgroupinc.com/>.

Communication to the NCCP

Are you a NCCP certified coach? If so, with completion of the Respect in Sport Activity Leader program, you are eligible for 3 Professional Development Points towards maintenance of your NCCP certification. By selecting "Allow" below, the Coaching Association of Canada (CAC) will update your NCCP profile and credit you 3 PD points for completion of this program.

Not a member of the CAC and the NCCP, Why Not? Having an NCCP number allows you to access the "The Locker" to house all of your coaching credentials, access other coach training, and many other resources through the CAC for coaches of any sport, at any level.

Select "allow" below to grant permission for the CAC to create a profile in your name and extend your journey as a valued coach in Canada. An email confirming your profile creation and welcoming you to the Coaching Association of Canada will be sent to the email address on record in this program.

If you choose to Decline Respect Group sharing your information with the Coaching Association at this time, we will of course respect your wishes. You can always return to the "Profile" section of this program to change your selection at any time.

Do you consent to allow Respect Group to share your information with the Coaching Association of Canada?

Allow Decline

Judo Canada will maintain and publish in the LOCKER or on Judo Canada Website a list of scheduled judo activities that are eligible for Professional Development credits.

Only those professional development credits entered in a coach's record on the NCCP Database will be used to determine whether the coach meets the context-specific requirements within the current certification period of valid certification.

All non-NCCP activity related to the renewal of certification and Professional Development data entered on the database will be subject to a user-pay system (e.g. Red Cross First Aid course).

Certified status will be given only to those coaches who accumulate the required professional development credits with the current certification renewal period.

Failure to accumulate the required professional development credits within the specified time causes the coach's status to be changed to "Certified (Not-Renewed)".

Coaching and other self-directed PD activities must be entered in the LOCKER by the coach. These activities must be recorded once a year.

Glossary:

Non-formal learning is any organized educational activity outside of the NCCP that provides learning opportunities for coaches. Examples include coaching conferences, seminars, apprenticeship programs, workshops, and clinics.

Informal learning is the lifelong process of acquiring knowledge, skills, attitudes, and insights through daily experiences and exposure to coaching and sport. Informal learning happens in a wide variety of settings including, previous experience as an athlete, informal mentoring, day-to-day coaching experiences, and interaction with peer coaches and athletes.

Self-directed learning occurs when the coach reflects upon their technical, practical, and critical coaching issues and determines how to overcome practical coaching dilemmas. Self-directed learning makes use of a wide variety of materials, including coaching and sports science manuals, books, journal articles, videos, and Internet sources, etc., that were created for the purpose of enabling learning.

Season of coaching is the normal coaching period for a context in a sport. It could be a partial year or a full year. Coach must register this activity in his own Locker profile.
